**FROM:** Secretary, Cargo Services Conference

**DATE:** 8 May 2012

**SUBJECT: RESOLUTION 671 - CHANGES TO CARGO-IMP**

---

With reference to Resolution 671, proposals to amend the Cargo Interchange Message Procedures (CIMP) were agreed by the Cargo Business Processes Panel and the Cargo Data Interchange Task Force.

This amendment is required to increase the Name field size so that Cargo-IMP Messages can hold the complete Name. It will facilitate implementation of e-AWB, e-Freight and regulatory compliance for advance electronic information as airline members will be able to supply complete Shipper, Consignee and Notify party Name.

In accordance with the provisions of Resolution 671, please find attached a summary of the agreed amendments to the Cargo Interchange Message Procedures (CIMP).

Any IATA Member may, within 30 days after the circulation of this Memorandum, protest these amendments by informing the Secretary of the Cargo Services Conference (CSC) with specific reasons for the protest.

If no protests are received by the close of business on **Friday, 8 June 2012**, the proposed amendments will become effective and implementable as of that date and will be included in the 32nd Edition of the Cargo Interchange Message Procedures (CIMP) to be released in 2012.
